Postpaid, to sufferers from kidney liver, bladder and blood troubles who will write the Warner's Safe Cure Co. of Rochester, N. Y., and mention having seen this liberal offer in this paper Thousands of people have kidney dis-

ease and do not know it. Our doctors have met with many cases in their experience where kidneys had become so impregnated with the disease that they would be called incurable by most doctors, yet the patient was not aware that his kidneys were diseased. Test for yourself; it costs nothing, and may be the means of saving your life.

TRY THIS SIMPLE HOME TEST:

When you arise in the morning put some urine in a glass or bottle, let it stand for 24 hours; if there is a reddish sediment in the bottom of the glass, or if the urine is cloudy or milky, or if you see particles or germs floating about in it, your kidneys are diseased and you should lose no time, but get a bottle of Warner's Safe Cure, as it is dangerous to neglect your kidneys for even one day.

A free trial bottle has been known to cure many cases that were discovered by the simple home test mentioned

The medical department of Warner's Safe Cure Co. is in charge of the most learned specialists of kidney disease the world has ever known. These doctors give their advice free and send a medical booklet containing symptoms and treatment of each form of the disease and samples of thousands of testimo nials received from patients who have been cured of all forms of kidney disease. All letters answered by regular practicing physicians and treated strictly confidentially.

Please bear in mind this liberal offer to send a free trial bottle of Warner's Safe Cure to any one who will write the Warner Safe Cure Co., Rochester, N. Y., and mention this paper. The publishers of this paper guarantee the genuineness of this offer.

sewer should be built, a petition will be circulated, and the creation of a benefit district asked for.

The proposed sewer will cost not over \$10,000. Some think that it will not cost over \$6,000. It is impossible to arrive at an estimate, even approximately, because nothing is known of the character of the ground which must be excavated, except that it is believed that not much rock will be encountered.

except that it is believed that not much rock will be encountered.

The proposed sewer will probably be about 24 inches in diameter. Several routes are being considered. One is from the junction with the Fourteenth street sewer on Fourteenth between Buchanan and Lincoin, straight west to College avenue, with laterais at frequent intervals running north and south. This route would place the main sewer directly through the center of the sewer district.

district.

Another proposed route is to divide the main sewer into two smaller ones, after leaving the junction on Fourteenth. One of the proposed forks would run west on Williams, the other west on Sixteenth.

The direct route would be less expensive, being only about five blocks in length, exclusive of laterals. The divided route would about double the total length of the main sewer, but would be smaller, and would involve less expense for laterals.

for laterals.

If the petition for the sewer is secured, the property in the proposed benefit district will be appraised, and assessed in proportion to the appraised valuation. The route of the sewer makes no difference in the cost to property holders who happen to be on the route selected.

These parties were near the Santa Fe rallroad bridge and ran like rabbits into the brush and weeds along the river bank when pursued by the officers, making their escape. Although a close watch was kept on all trains coming in from the north and east, the two captured on the Santa Fe local freight at 12 o'clock were the only victims, and they acquitted thefaselves in police court this morning. They were both 21 years old and gave their names as Fred Flegle and Harry Saton, and said that they had been working with a threshing machine in South Dakota, and were returning to their relatives in the western part of the state. Their story and appearance cleared them and they left town at once. They were captured by means of a telegram sent by Conductor Johnson of the local freight, who noticed them on the train soon after leaving Leavenworth, and telegraphed ahead. Sergeant McElroy was on hand to meet the train with a squad of police and searched it thoroughly. The men were very much surprised when told that the Kansas City papers had an account of the capture of two desperate convicts at North Topeka last night. They looked at each other with wonder, trying to see what there was about their appearance that warranted the suspicion.

Chief Stahl made a little trip down East Fourth street Friday afternoon about 5:30 and when he returned was escorting a pretty girl and a middle-aged man who were charged with the regulation "selling and maintaining." They were Jack Douglass and Minnie Douglass, his daughter, whose place of business was placed at 408 East Fourth street. Half a gallon of tanglefoot was the stock in trade captured, which was brought along in the procession. Father and daughter put up a \$250 bond each. In court this morning Mr. Douglass said that as he had never had any experience in police court before they would do him a favor by allowing him time to get acquainted with some reliable attorney. The prosecuting attorney glanced at the handsome daughter, and graciously granted his request. Attorney Hungate will dispute the charge at Monday's session.

Officer Pavey succeeded this morning in capturing the bold bad little boys who stole the German woman's wash boller and gum boots. First he appeared with Jimmie Ingalis, and later corralled Peter Kimluski, who seemed to be the chiefski of the gang. Jimmie said that the old things were no good, anyway, and they found them in the alley. Judge Lindsay said the proper treatment for the pair would be a large, juicy slippery elm sprout, with severe and frequent applications.

A pair of plain drunks completed the list by adding their mite to the fund, and court was over, leaving the force at liberty to search for convicts.

OVER M. P. TRACKS. Santa Fe Secures Direct Entrance to K. C. Union Depot.

K. C. Union Depot.

Kansas City, Mo., Nov. 9.—Grading has begun for the purpose of connecting the Atchison, Topeka & Santa Feraliway tracks with the Missouri Pacific tracks east of Sheffield, at a point where the two tracks cross. The purpose of this connection is to enable the Santa Fe to run its through passenger trains into the Union depot over the Missouri Pacific tracks, avoiding the necessity of the long circuit of the Grand avenue depot track and the backing of the trains into the Union depot from the Belt line crossing, a mile south of the Union depot. Through trains from the west will avoid the mile south of the Union depot. Through trains from the west will avoid the necessity of switching back to get into the depot and also the return trip as far as the Belt line crossing. Last year the California limited trains on the Santa Fe did not enter the Union depot at all either on the going or return trips. The California limited service was resumed as a daily train November 3, with the trains scheduled to stop at the Union depot. The new arrangement may facilitate the building of a new Union depot. Heretofore the Santa Fe railroad has opposed the erection of a new depot in the north end, but with an arrangement to run its through trains over the Missouri Pacific tracks this opposition may be withdrawn.

This morning Col. Close arrived in Topeka, and related the incident of the difficulty with Gage to his numerous friends and acquaintances.

It appears that there has been trou-ble brewing in the Close-Gage company. Mr. Close has come to the conclusion that Gage was trying to run everything to sult himself. Close told Gage that if he didn't be good, he should not use the mill. Gage defied Close to keep him out.

out.
The mill, however, was built, and is owned, by Mr. Close. Gage is said to not own any financial interest in the

Some Difference in the Cost. Some Difference in the Cost.

At St. Joseph last night reserved seats for the concert by the Boston Ladies' Symphony Orchestra cost \$1.50. At their performance in this city on the 13th inst. in the Auditorium reserved seats only cost 25 cents. Evidently the people of Topeka are being highly favored by reason of the large seating capacity of the Auditorium. In no other city do such prices prevail for first-class entertainments of this character. The people are getting what they voted for. Chart opens at Stanfield's Monday morning.

An English Author Wrote:

"No shade, no shine, no fruit, no flowers, no leaves-November!" Many Americans would add "no freedom from catarrh," which is so aggravated during this month that it becomes constantly troublesome. There is abundant proof that catarrh is a constitutional disease. It is related to scofula and disease. It is related to scorula and consumption, being one of the wasting diseases. Hood's Sarsaparilla has shown that what is capable of eradicating scrofula, completely cures catarrh and taken in time prevents consumption. We cannot see how any sufferer can put off taking this medicine, in view of the widely published record of its radical and permanent cures. It is undoubtely America's Greatest Disease—

Marshall's band concert at the Craw-ford, Sunday afternoon at 3 o'clock. Admission, 10 and 15 cents.

Jamped on a Ten Penny Nail. Mr. and Mrs. Norton of the Lyman school district, was kicked by a colt yesterday noon and had his nose broken. The child went out in the orchard to gather apples and seeing the colt there thoughtlessly struck it with a small stick. The coit resented this treatment and kicked the little fellow in the face. Aside from having his nose broken a deep cut was made in his face in which it was necessary to take several stitches.
